We have been notified that the following medical device is sold as CE-marked product.

Product name:
Rhino Horn

The precondition for medical devices to be CE-marked in compliance with directive 90/385/EEC, directive 93/42/EEC or directive 98/79 EC is to meet the essential requirements for safety. A CE-marked medical device may therefore be placed on the market in Norway without any approval from the Directorate of Health and may be exported without any restrictions.

This certificate is valid until 20 January 2018.
